Help support the health and wellness of our students.

**Healthy Classrooms**

**Healthy Happy Classrooms**

Safety and health are a primary concern for our students. In accordance with District policy 246, we require all snacks being provided in the classroom be “smart snack” compliant. This brochure provides a list of pre-approved items.

Please note the following:

- All items provided for students must be smart snack compliant.
- All items brought into the classroom must be closed, sealed containers.
- Any no-commercially packaged foods would need to be provided by the food service department. 717-261-3391

Thank you for your cooperation.
