From the Principal

As we come to the end of the school year, we would like to thank everyone for their continued support of CMS and the student body. Our first full year back from COVID was full of challenges but the students rose the occasion and made the year a successful one. Thank you to students, parents, and staff. I hope your summer is relaxing, safe, and full of adventure. To our seniors: See you at graduation!!!

Shawn Stenger
Principal
Chambersburg Career Magnet School

Human Anatomy & Physiology class field trip

The Anatomy and Physiology class visited Northern Virginia Community College to see a cadaver. Students were able to handle and examine many human organs.

“The trip was full of fun and excitement. The bus rides to and from me and my friends laughed most of it. The campus on the college was very welcoming, I might even want to attend someday! Overall a very good experience that I was genuinely thankful to be a part of.”

The cadaver lab was a great experience. It was very cool to see human organs, muscles, and bones. It was a different experience holding human brains and hearts rather than those organs from a sheep. This is an opportunity that I would never forgot and I am very grateful for the experience.

“An eye-opening experience that made me appreciate the complexity of the human anatomy”

Early American History and AP US History field trip.

On April 18, Mr. Foltz took 120 ninth graders on a day long field trip to Gettysburg. They climbed the Pennsylvania monument, toured the museum, and experienced the cyclorama. A big thank you to CMS-PTSA for sponsoring the trip.
CMS Prom 2023
Prom was a success with nearly 300 CMS students and their guests in attendance. It was held at Green Grove Gardens on April 29th and in between 8 days of rain we had 8 hours of beautiful weather.

CMStival plans
The CMS Student Government along with the CMStival Committee is working very diligently planning the 10th CMStival for our students! More to come soon!

Class of 2023 Graduation!
We are getting ready to graduate 199 CMS students with the Class of 2023, the ceremony will be held Thursday, June 1st @ 6:30 in the evening rain or shine. Planning is also underway for our traditional Senior Send-off, so that we can celebrate our seniors their accomplishments and their future plans.

CMS Graduation Practice schedule and Graduation information has been posted to ALL CMS Graduates. We are unable to give out information over the phone. Please have your student check their email for the information.

CMS PTSA Umbrella Sale
