

NEW INSTANT NOTIFICATION SYSTEM COMING SOON!

Keeping our families informed and involved helps to ensure student safety and improve student success. With today's busy lifestyles, it has become more difficult for schools to reach families quickly and effectively. Therefore, Chambersburg Area School District has decided to implement a new Instant Notification System called Global Connect.

Global Connect is an essential tool for notification and communication. Within minutes of an emergency, school officials can use Global Connect to deliver a single, clear message to the students' parents or guardians by telephone. We will be adding the capability for e-mail notification in the near future.

This system will only be effective if we have the correct contact information for every child in our student information system. We need your help in providing us with that accurate information.

To do so, please visit our website and verify your contact information through our HomeLogic portal. HomeLogic is our new parent/student access system which will allow families to view grades and attendance online. A letter was sent home to every family earlier this year advising you how to register for this system. If you have not yet done so, please follow the following steps:

1. Go to www.chambersburg.k12.pa.us/homelogic
2. Go to the Login link or Self-registration
3. Once you are logged in verify your contact information under demographics.
4. If it is incorrect or incomplete, contact your child's school
5. If you have children at multiple schools, it is only necessary to contact one school and changes will be made for the entire family

This information will allow us to notify parents in the event of an emergency. The Global Connect system is an important step in our ongoing efforts to communicate with parents and provide information in the event of an emergency. Thank you!

Brett Hill
Director of Security
Chambersburg Area School District
