

SMART[®]

Inspired Collaboration[™]

Chambersburg School District upgraded SMART Notebook software from Notebook 15 to Notebook 17. Many of you have been using SMART software at home. To upgrade your software or to install for the first time at home, please visit the SMART Notebook software download page. During the installation you will be asked to enter a product key to activate the software. That product key is provided below.

SMART website: www.smarttech.com

1. Click at the top right hand corner (double line)
2. Click on "SUPPORT"
3. Choose "Download SMART Notebook"
4. Check "I've already purchased a license"
5. Click "yes or no" if you want emails from SMART
6. Click "Download Windows" (you may get a warning window since it is an executable file. It is ok to click "proceed")

Here is the product key:

NC-2ACSK-BEAHJ-VCAIG-A8AAA-AAA

Don't worry about existing SMART Notebook files. Although the current version of the software has been upgraded to SMART Notebook 17, all of your previously created SMART Notebook files are compatible with this new version. The only issue is that flash components will not function in 17.
