The Trojan Walk was created as an event to honor and support our 1,500+ special education students within the Chambersburg School District. Our goal within CASD is to provide a welcoming, supportive, caring, and inclusive environment for all students. We believe that all students have an individual ability to learn, grow, and thrive together.

SLIME TIME!

We have set three fundraising goals for the walk. When we reach a fundraising goal, the administrator paired with that goal will be slimed with blue Trojan slime the day of the walk. If we reach our over arching goal of $7,000 all of our CASD administrators will be slimed!

Fundraising Goals:

$3,000 – Brad Ocker, CASHS Principal

$5,000 – Mr. Kurt Widmann, Assistant Superintendent and Chief Academic Officer

$7,000 – Dr. Mark Long, Assistant Superintendent for Innovation and Improvement

The money raised through this event will directly benefit the special education students across the district K-12 within all of our special education programs. Donations may be used, but not limited to supporting sensory modulation areas and tools, community outreach and experiences, career and transition exploration. Please note, donations will not be used to supplant district purchases.
