

DROP-OFF, PICK-UP & PARKING POLICY

AM Arrival

- Traffic in the AM should flow continuously – single file - around the parking lot as indicated by the arrows. Vehicles should proceed around the lot and into the “Kiss and Go” zone as indicated on the map. You should then unload your student(s) as quickly as possible and safely proceed to exit the parking lot.
- Please have students prepared to exit the vehicle from the driver’s side directly onto the sidewalk when and if at all possible.
- If you have students that require your personal assistance to exit or walk to the front loading area or you have items that need to be unloaded then you must find a legal parking space.
- Students may not be dropped off prior to 8:45 AM.

PM Dismissal

- When picking up students, cars will enter the parking lot and proceed around the parking lot as indicated by the arrows and begin to line up single file. Do not exit your vehicle. Your child will be escorted to you as you proceed through the line for pick up.
- If a child has large or bulky items that require your assistance, please park in a legal parking spot and then walk over to the waiting area to collect your child and his or her belongings.
