Date________________

Physician’s Name Printed__________________________ Phone____________

I hereby grant permission to the Chambersburg Area School District personnel to administer the above medication to my child. For the safety and protection of your child and all other students, School Health Services strongly recommend that the parent/guardian deliver the medication and this form to the school nurse, office or designee. It is the procedure of the Chambersburg Area School District to administer medication during school hours only when absolutely necessary. To protect your child and other students, the parent/guardian must complete and return this form if the child must take medication during the school day. Prescription medication must be sent to school in the original container. For an over-the-counter medication, attach a label to the original container with the student’s name, amount to be taken and how often it can be given. Do not send substitute containers to school.
